Victoria, B. C., December 27, 1876.

RAISING THE DEAD.

A Vain Attempt to Perform this Miracle in Iowa

A horrible story is related by the Ida county, Ia., "Pioneer," of an affair which occurred at the appropriately named village of Hell's Bend, in that county. About the middle of November one Mr. Heycock was taken down with typhoid fever, and Dr. Rice of Smithland was summoned to render medical aid. The patient was getting along as well as could be expected under the circumstances—the patient being quite low before medical aid was received. One day a Spiritualist, residing in that vicinity, by the name of Frank Biglow, called at the house of Mr. Heycock, won the confidence of the family, and boldly asserted that he could perfect a rapid cure upon Mr. Heycock through the medium of Spiritualism, providing they would let him have his own way. After a short time of consideration Mrs. Heycock informed Biglow that they were at his mercy. Biglow threw out all the medicines prepared by Dr. Rice, and sent the doctor word not to make another visit. From this time no medicine was administered save Biglow's spiritual aid. He commenced talking and groaning to the patient, rubbing his brow, and pulling his beard, etc. Mr. Heycock finally suffered less pain, which led the wife and Biglow to the belief that he was recovering. Visitors were finally forbidden coming. In the course of a day or two a few of the citizens again went to the house and asked a mission which was granted. There, in bed, lay the dead body of Mr. Heycock, the eye sockets already turning black. One of the visitors exclaimed, "He is dead." Biglow said, "He is not dead, but sleepeth," at the same endeavoring to blow out the light. The neighbors suggested that the body be laid out for burial. Biglow objected and said: "If my brother be dead I can raise him to life again," and, rising upon his feet, stretching his arms over the corpse and lifting his eyes toward heaven, he shouted at the top of his voice, "Come forth, my dear brother! Gravel give back thy dead!" He then knelt over the dead body, saying, "Open thy eyes, my dear brother," at the same time pushing the eye-lids open with his thumb (thinking no one saw him), and with a feeling of satisfaction, he turned to the bystanders and yelled, "Praise the Lord." But, to his surprise, the "brother" did not rise worth a cent. The citizens again wanted possession of the body for interment, but the spiritual doctor stubbornly refused, saying, "I can rise thy brother at the end of the third day." Heavy blankets were then piled upon the corpse by Biglow, to retain the animal heat. The doors were locked and no lights were used for during three days, but what else transpired is not known. At the end of the third day Mrs. Heycock sent word to a few of the neighbors to come and bury the body. They came, and among them were the most stout and hardy men in the neighborhood, but they became faint and sickened upon entering the room on account of the unendurable stench resulting from the decomposition of the body. They were compelled to bring ice from the river, which they placed around the corpse to freeze it, before they could arrange it in the coffin. Mr. Heycock was about 45 years of age and was recently from Wisconsin. He was by faith an Adventist, and was highly respected by all his acquaintances. The whole neighborhood is filled with great indignation over the affair.

Remember This.

Now is the time of year for Pneumonia, Lung Fever, Coughs, Colds, and fatal results of predisposition to Consumption, and other throat and Lung Disease. BOSCHER'S GERMAN SYRUP has been used in this neighborhood for the past two or three years without a single failure to cure. If you have not used this medicine yourself, go to your Druggist, and ask him of its wonderful success among his customers. Three doses will relieve the worst case. If you have no faith in any medicine, just buy a Sample Bottle of BOSCHER'S GERMAN SYRUP for 10 cents and try it. Regular size bottle 75 cents. Don't neglect a cough to save 75 cents. ja10c0wdw

From Rev. Sylvanus Cobb, of Boston, formerly Editor of the "Christian Freeman."

Dear Sir—It may be some satisfaction to you to be informed of the result of the trial of the PERUVIAN SYRUP in my family. My daughter was brought low by a typhoid fever last Spring, and after the fever left her she continued very weak, and the simplest food distressed her. For months she remained in the same debilitated condition; but from the 1st of September last, when she commenced taking the Syrup, the digestive functions improved, and she steadily gained strength and vivacity; and now, after taking two bottles, she is restored to a good state of health; indeed, she appears more really healthy than she has for several years past. I am of opinion that the "Protoxide of Iron" contained in the PERUVIAN SYRUP was adapted to her case, and effected what no other known medicine could have effected.

Yours truly, S. COBB.

"A Drowning Man will Catch at a Straw."

If he catch it, it will do him no good. Thousands of people, who have neglected colds and coughs until they have become dangerous, will rush to almost every nostrum for relief. This is why so many experiments are tried by the sufferers. Go to your druggist, buy a bottle of WISTAR'S BALM OF WILD CHERRY, and use it with confidence. It will benefit at once and ultimately cure. It is no straw; it is a cable well tried; hold on to it and be saved. Sold by all druggists.

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

WHY DID HE HOLD HIS PEACE?

The public will bear with us a moment while we refer briefly to an article on the artificial stone plot that appeared in our contemporary yesterday. It has already been shown that the editor of the Standard, on the 18th of November, announced that he took great pleasure in introducing Mr. Leathers to the public of Victoria as a "gentleman of responsibility and respectability." The evidence of Mr. J. P. Davies proves that on the 14th of December Mr. DeCosmos offered to puff the stone if Leathers would "pay him." And our contemporary confesses that the article advising the Government to build the drydock of artificial stone appeared in its columns of the 16th December, and was paid for. The only point, therefore, that remains for discussion is the one respecting the visit of Mr. Forbes to the Standard office with \$25 in his pocket to bribe the paper (what a high value the stone men must have put on the Standard's influence). Our contemporary says that it declined the \$25, and that Forbes then asked him to name his price—that all they wanted was the Standard's influence to make a "big raise." The offer was declined, says Mr. DeCosmos, with indignation. Now, then, how did it come that this attempt to bribe an editor was not made public at the time? Why was the editorial "indignation" kept bottled up until Leathers and Thorp had obtained their object and left the country? Why did not the "indignation" boil over at once? and why did not an exposure follow quickly on the heels of the offer? What could have damaged the scheme and its projectors more than the publication of the so-called particulars of the interview to the community? Would Messrs. Sayward, Morton, Sterling, Lippsett and others have been drawn into the affair if they knew that Forbes had gone to the Standard office and said "we want to make a big raise?" meaning thereby that the stone men sought to perpetrate a swindle on certain unsuspecting parties and wanted the editor to help them do it? With such conclusive evidence in his possession of an intended fraud, we say that the editor of the Standard was criminal in not making the place ring with it. "We want to make a big raise!" And our contemporary at this late date confesses that he knew all about the conspiracy (if it was one), and held his peace! We ask the citizens of Victoria—we ask the victims of the so-called swindle—to bear this fact well in mind. Mr. DeCosmos claims to have been told by Mr. Forbes that the whole affair was a fraud, and yet he held his peace until the fraud was consummated and the parties had got safely away with their booty!

DYKING TIDAL LANDS.

An Olympia paper furnishes a few figures to prove the great productiveness of lands reclaimed from the sea by means of dykes. It says that last year Capt. Morgan and Loveland purchased a place of this kind from M. V. Stacy, Esq., near the mouth of the Skagit river. There were 420 acres of it, which we understand to be all dyked; of this 120 acres were in grain this past season and a crop was harvested of 2,000 bushels each of oats and wheat. The owners of the place also own the schooner Winged Racer, and she has been employed for sometime past in marketing the crop, having already delivered at three trips to Mr. Crosby, of Tumwater, 1200 bushels of the wheat. At the ruling prices the grain thus raised in one season will go far towards paying the expenses of dyking the land on which it was raised.

THE NANAIMO ELECTION.

This contest took place yesterday; but the result will not be known here for a day or two. We have closely watched the speeches and addresses of the three candidates and are surprised to discover that neither is pledged to the Carnarvon Terms. Each announces himself in favor of opening up to settlement the land reserve—the only security the Province has to offer for the construction of the Island road. These lands, it will be remembered, were conveyed to the Dominion Government by virtue of an Act of the Local Parliament in 1875, in accordance with the terms of the Carnarvon settlement. If these lands be now thrown open to settlement there will be an end to the land-subsidy of the Island Railway; and should its construction be undertaken the parties who may take it in hand will have to look to some other source than coal lands for remuneration.

Well to Know.

Again the time has come round when precious gifts are made to precious persons. Even in luxury there can be economy by going to the right place to select. To find this place no sensible person will be guided by noisy or bogus advertisements. A single visit to my store on Government street will satisfy you that I have everything in my stock of watches, jewelry, silver and silver-plated ware, &c., &c., that will suit even the most fastidious, and the low prices asked for these goods will undoubtedly induce you to buy.

As to work appertaining to chronometers, watches, jewelry, &c., &c., I would simply state that during my long stay in Victoria I have given sufficient proof that I can furnish perfect satisfaction at reasonable prices. No deception and exaggerated advertisements made use of to mislead; and no extra charges put on goods and work done to pay journeymen out of the customer's pockets. I am fully able and competent to do all work brought to the shop myself and therefore can better afford to give my customers the full benefit of my facilities. G. W. A. LANGE, Watchmaker and Jeweler, opposite the Colonist office, Government Street, Victoria. 1m3p

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Province.

THE COMING GUN.

Two Hundred Ton Gun for British Service.

[From the London Standard.

We believe we are correct in saying that an important step has been taken within the last two or three days with reference to the question of heavy guns for the British service. We understand that the Admiralty have asked to be furnished with designs for a gun which shall be capable of sending a projectile through 36 inches of armour at a distance of 1,000 yards. It does not appear that anything has been said as to the weight of the gun, or as to the weight or diameter of the projectile. All this seems to be left in the first instance to the judgment of the Royal Gun Factories.

It is within the limits of probability that the "coming gun" of the British navy will weigh 200 tons. But such weight is scarcely necessary for the work which the engine of war is asked to perform. Much depends on length, for a long gun is in proportion to its foot tons of energy a lighter weapon than a shorter gun, presuming both be made of the same system. If a gun increased in length the same work can be got out of it with reduced pressure. If the new gun is to be a short one 200 tons would seem to be inevitable. If greater length be permitted, the lesser weight may suffice, and a really better gun would be produced. As for cost, we have on a former occasion put it at £25,000. The price of the Elswick gun of 100 tons is understood to be £16,000. Whatever the size, the new weapon will be a muzzle-loading rifled gun of the Fraser construction built up with massive wrought iron coils on a steel tube. The metal for the tube will doubtless be supplied by Messrs. T. Firth & Son of Sheffield, the eminent manufacturers who supply the steel for the interior tubes of all the Government guns, as likewise for the guns made by Sir W. Armstrong. The time occupied in making the proposed gun is not likely to be much less than two years.

It must not be supposed that in asking for a piece of ordnance such as that we have endeavored to describe the British Admiralty are making an extravagant demand. In fact they could scarcely ask for less, and if they have erred at all it is by not requiring something greater. Possibly the proposal will be enlarged, but we take it as it stands, and we think the nation may be congratulated on the enterprise which is thus entered upon. It is evident that our naval authorities are conscious of the necessity which exists for further progress in the scale of heavy guns. We cannot consider a gun of 175 or 200 tons a final step, but it is a considerable one, and exceeds anything which we have yet heard of elsewhere. But guns are spoken of which threaten to come very close to it. Thus it has been stated for some time past that Herr Krupp is making a steel gun of 150 tons. Very lately we have heard that it is proposed to make a steel gun in France, at the famous Creuzot works of Messrs. Schneider. The Schneider firm are enormously wealthy, as indicated by their immense works, employing 15,000 hands. The resources of Sir W. Armstrong are also abundant for the purpose of making something larger than a gun of 100 tons. There is likewise the certainty of armour being produced which will require to be attacked by guns such as those which England now proposes to have.

To Whom it may Concern.

This certifies that Dr. R. Price has cured my hearing, after 18 years of deafness, and I would recommend him to any of my friends. His cures are simple and true. Truly yours, SAUL HONE.

A CARD.

"Honor to Whom Honor is Due." This certifies that Dr. R. Price has cured me from "Chronic Bronchitis" after other physicians have failed. H. S. BUTTER. Cook on Otter.

ON SEWING MACHINES.

The best advice to intending purchasers of Sewing Machines is to select a machine which has built a reputation on its merits. This the Raymond sewing machine has done. Over 500 of these machines are in constant use in Victoria and vicinity, and the main land; and the ever repeated report of purchasers is that the machines more than meet expectations and give perfect satisfaction. Flattering as may be the appreciation of the Raymond Sewing Machines by the people of British Columbia it is but a faint echo of the reputation in which the Raymond is held throughout the globe. Readers of foreign newspapers can testify to this statement; and official returns show the Raymond to rank foremost in the lists of exports. A machine which meets with universal endorsement must be good. Try it. For sale by A.B. GRAY & Co., Victoria, B. C.

BLANKBOOK MANUFACTORY AND BOOKBINDERY.

Paper ruled to any pattern. Tickets, receipts, etc., numbered and perforated. Charts and maps mounted. The best of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co.'s store.

OLD CHOCOLAT is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to and other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort street, and sold by all the principal dealers.

TURKEYS—12¢; 10¢; 8¢; 6¢.

The Indian Difficulty at Chemainus.

The Indian Reserve Commissioners have finished their difficult work at Chemainus. There never was any danger of an Indian outbreak. It appears that several of the Chemainus tribes have for years past practically defied the authorities and caused anxiety amongst the settlers by fencing and cultivating the lands of white men at pleasure. There are not twenty white men in the district, and the Indians number about 500. The Indians were protected by the formidable Indian Act of 1876, but the settlers had no means of redress; they had little money to spend in law, and it was evident that if they won a suit they could not recover costs from Indians. They were living, in fact, without a proper sense of security. The Commissioners, on finding this state of matters, kindly but decisively explained to the Indians that they must move both houses and fences within their own reserve before the Commissioners would deal with their land questions. Two of the tribes did this; but the Penul-lah-kuts, a bold tribe which includes the remnant of the Luma-lahs—well known as the tribe which attacked H. M. S. Forward—refused or neglected to make amends for their illegal acts. The Commissioners held to their point, and by isolating this powerful tribe, and by gentle yet firm dealing, ultimately compelled them to do what no Indian tribe has ever yet done on the Coast. They had three houses on white men's lands and about a mile of fencing. It is a lesson not likely to be lost on the Indian population that the Penul-lah-kuts, who have been lordling it for years in Chemainus, were to be seen on rainy and spowdy days, with sullessness yet obediently taking down fences and houses which they had braved the law to erect. The Indians afterwards admitted that they felt safer to be within the law, and that the Commissioners had done right in explaining their duty to them. They thanked the Commissioners for their kindness and good advice. The Commissioners received great assistance, by way of moral backing, from Capt. Harris of H. M. S. Rocket, and from Col. Powell as Superintendent of Indian Affairs during the visit which they paid to Chemainus. The settlers of Chemainus now hope that the Indian difficulty which has been such a bar to their industry and comfort is removed.

SOME VERY REMARKABLE WINTERS.—Now is the time to trot out paragraphs about remarkable winters—winters that have distinguished themselves by being either colder or warmer than the law allows. No well regulated newspaper will neglect this duty. Referring back to our files, we find that in 1172 the temperature was so high that leaves came out on the trees in January, and birds hatched their broods in February. In 1289 the weather was equally mild, and the maidens of Cologne wore wreaths of violets and corn flowers at Christmas and Twelfth Day. In 1321 the trees flowered in the month of March, and the vines in the month of April. Peaches appeared in May, and little boys commenced to fall out of apple trees a little later. In 1572 the trees were covered with leaves in January, and the birds hatched their young in February, as in 1172. In 1586 the same thing was repeated, and it is added that the corn was in ear at Easter. To the best of our memory there was in France neither snow nor frost throughout the winters of 1533, 1607, 1609, 1617, 1659; finally, in 1662, even in the north of Germany, the stoves were not lighted, trees flowered in February, and out-door bouquets were showered on the newspaper offices without number. It seems but as yesterday. Coming to later dates, the winter of 1846-47, when it thundered at Paris on the 28th of January, and that of 1866, the year of the inundation of the Seine may be mentioned as very mild.

THEATRE ROYAL.—The scenery of this theatre is about to undergo a thorough renovation at the hands of Mr. R. C. White for the reception of the Sawtelle dramatic company. "The Two Orphans," one of the most beautiful and chaste of modern plays, will be produced by the company, which will arrive on Thursday next. Mr. White is a celebrated scene artist. Amongst the most elegant creations of his brush is the scenery of the Newmarket Theatre at Portland, which is pronounced a perfect gem of art. Mr. White is now in town and will commence operations to-day.

THE BLARNEY STONE.—For sale. No. 7, 8, 9 and 10 cooking stoves, nearly new, parlor and office stoves, spring mattresses, marble top tables, carpets, large plate glass mirrors, bedding, davy serge boots and shoes, &c., &c., all of which will be sold forty per cent. under actual value to make room for a large consignment of goods about to arrive at Haggerty's Store on Dufferin street.

The steamer Grappler arrived from Nanaimo yesterday at 4 p.m., having left at 7:45 this morning, in a little over 8 hours. But for the 70 tons of coal on board of her being stowed so as to bring her too much down by the head her time would have been still better. She brought the following passengers: R. W. Janion, W. C. Robinson, J. Petrie, J. Mitchell, C. Johnson, H. Chater and several others.

MINING CLAIM FOR SALE.—A FIRST-RATE CHANCE.—A good mining claim for sale on McNamee Creek, Cassiar, the owner going into another business. For terms apply to Peter McDonald, Tobaccosmith, Yates street, next door to the Oriental Hotel.

It is a curious fact, but a sad one for too many deserving people, that whilst the principal mines on the Comstock lode were selling four months ago for about \$135,000,000, they would only realize at the rates ruling to-day about \$55,000,000.

The steamer Maude arrived at 5 p. m. yesterday from Comox and way ports with the following passengers: W. Thomas, J. D. Clarke, Jenner, Williams, J. Coburn, Carus.

TORPEDOES.—On the Hudson Bay Company's wharf may be seen two very large canoes filled with torpedoes for the Navy Yard.

THE DAKOTA.—This steamship arrived at half past two o'clock yesterday afternoon from Seattle and will sail at noon to-day for San Francisco.

A BREAK has occurred in the mains and the water will be turned off from noon to-day until the damage has been repaired.

H. M. S. SHAH sailed from England on the 10th December for the Pacific Station.

Nanaimo.

[Free Press.]

During the present weather it would be well for all the citizens to look well to the surroundings of their habitations and see that no stagnant pools of water, decaying matter or offensive smells exist in the neighborhood. We also trust that the newly appointed Sanitary Committee will see that the street sewers are kept clean and free from filth.

The funeral of the late Agnes McGregor took place on Sunday afternoon and was attended by a large concourse of friends and acquaintances. Rev. Wm. Clyde, of the Presbyterian Church, read the burial service. The deceased young lady was seventeen years of age, and after a fourteen days' illness succumbed to that insidious disease—typhoid fever. She leaves a widowed mother, several brothers and sisters and a large circle of relatives and acquaintances to mourn her early departure to that life beyond the tomb.

Mr. Theo. Davis, formerly of Victoria, solicitor, &c., has opened an office in the Commercial Hotel, and will practice at the different courts.

In addition to the vessels mentioned in our last issue, the bark Revere is under engagement at San Francisco for this port.

The bark Wildwood, with a cargo of Wellington coal, sailed for San Francisco on Monday last.

The barks Arkwright and Henry Buck have arrived for cargoes of coal.

THE STORY OF THE THREE BLACK CROWS is reproduced by our contemporary. He says that "Our David" was presented with a handsome bedroom set, a silver-plated tea service and a gold pen by the late lamented Col. Lord. The only recent addition to "David's" household possessions is a bedroom set for a doll, bought by him at the London Bazaar for \$2 25 and with which the heart of a little maid was made very glad during the Christmas time. The silver tea service is one of the pleasant fancies of our contemporary—a bit of Brummagem ware of his own manufacture, with which he is wont to amuse his readers. "David" informs us that he pleads guilty to the receipt of a gold pen with the "gallant Colonel's" compliments and the remark that if that "fellow of the Standard" knew how to sling ink as well as "David" does he would send him one, too! The pen was from the Christmas Tree reared at the American Hotel, and from which about 100 presents were distributed. We are sorry, for "David's" sake, that the pen was one of the least costly articles on the tree—yet it has already performed brave service in exposing the charlatanisms of the Standard, which, while receiving money with one hand from the stone men, belabored them without mercy with the other.

ST. JOHN'S GRAMMAR SCHOOL.—Rev. Percival Jenks will open a school in this city under the above title on the 1st proximo. A reference to the advertisement will explain the different branches proposed to be taught.

THE steamer Otter left as usual at 7 o'clock yesterday morning with Mrs. Ludner and children, Capt. Irving, Mr. Crawford and one or two other passengers, the mails and a small freight.

THE Russian Admiral has decided to rendezvous his fleet at Mare Island, California.

RAIN, welcome rain, has fallen in California, and hopes are entertained that the crops will be saved.

POLICE COURT.—A drunk and a sailor for refusing to do duty on the Princess Royal, were disposed of yesterday.

An Early Session.

EDITOR COLONIST.—Have you forgotten how the DeCosmos-Walken Government delayed meeting the Legislature till March in 1875? Assuredly stronger reasons exist now for waiting. Desirable as it undoubtedly is on other grounds that the convening of the House should not be much longer delayed, it is earnestly to be hoped that the Standard's senseless clamor will not cause our Premier to swerve from his statesmanlike purpose of delaying the session as far as may be compatible with other important interests in order that he may lay before the House the joint result of Lord Dufferin's visit and Lord Carnarvon's cogitations. So completely does this subject overshadow all others, so helplessly do they budge upon it, that the Legislature would find itself very much at sea if it met before Lord Carnarvon's answer came. In fact, the "Speech from the Throne" couldn't very well be framed without it. All this clamor about delay has, I am persuaded, very little more for its object than a sort of forlorn hope of embarrassing an Administration earnestly striving to do what is best for the country.

A Surfeit.

EDITOR COLONIST.—Now that the public are convinced that your contemporary was just as deep in the mess as yourself, would it not be advisable to "let up" on this artificial stone business? Rest assured your readers are tired of it, and, then, what will our neighbours think of us and our press?

A Subscriber.

[Our object in devoting so much attention to the stone was to expose the hypocrisy of our contemporary, who, in the most impudent and unblushing manner attempted to make us bear his sins of omission and commission as well as our own. If considerable space has been devoted to the subject, we think that "A Subscriber" will agree with us that the game we brought down (viz., a corrupt member of Parliament) was worth the candle.—ED. COLONIST.]

DR. JAMES

Has removed to Broughton street opposite the City Chambers. Philip James, M. D., Diplomated Eclectic Physician. Extracts Polypus and Cancer without the use of the knife. Rheumatism cured in one hour without pain. He is now using the Electric Magnetic Machine with good effect in many diseases of Rheumatic, Palsy or Paralysis and Fits. N. B.—Special attention given to all diseases of women and children.

WM. HAYNES, Bandmaster Militia, will give instruction in the theory of harmony at schools or residences. Processions, balls, private parties, &c., &c., furnished. Orders left at M. R. Smith's, Victoria Bakery, Fort street, will receive prompt attention.

By Electric Telegraph.

EXCLUSIVE TO THE COLONIST.

LAST NIGHT'S DISPATCHES.

CALIFORNIA.

SAN FRANCISCO, Jan. 17.—A San Diego dispatch reports an earthquake 45 miles southeast of that city, about noon Saturday. Vibrations were from east to west, extending throughout the mountains to the borders of Cajon Valley.

DIXON, Jan. 17.—It showered at intervals during the day; dashing rain this evening.

SAN DIEGO, Jan. 17.—Light rains here and indications of more to-night.

VALLEJO, Jan. 17.—It began sprinkling here about midnight and at one o'clock this morning rain fell steadily and quite heavily, lasting for several hours. It has rained with occasional intermission during the afternoon.

LOS ANGELES, Jan. 17.—It began raining at three o'clock this morning and rained without intermission until nine o'clock. One and a half inches fell.

EASTERN STATES.

WASHINGTON, Jan. 17.—Rear Admiral Joseph Smith, the oldest officer in the navy, died here this morning. He entered the navy July 16th, 1800. For many years he has been on the retired list, having made his last cruise at sea in 1845.

NEW YORK, Jan. 18.—The World says the two Houses are to meet Jan. 30th, and three tellers are to be appointed, one from the Senate and two from the House, while the Times states that the Houses are to meet February 21, and that four tellers are to be appointed, two from each of the Houses.

WASHINGTON, Jan. 17.—The Executive Committee of the Western Union Telegraph have been summoned before the Committee of Powers and Privileges of the House. It is said the Western Union will soon formally surrender all telegrams desired by both parties.

Assistant Secretary French, of the Treasury, says he has advised from the Hawaiian Minister that the following articles are admitted free of duty from the United States: Silks, satins and velvet and linens, if made of a combination of wool, cotton, silk or linen, or of any two or more of the other, and readymade clothing. The Minister remarks while a pure article of silk or linen piece goods pay, the mixed pay none, if of the growth, product or manufacture of the United States; that wooden clocks and toys made of wood, and firearms if made of wood or metal, and nothing else, are free, and also playing cards as a manufacture of paper, and cigars, cheroots and cigarettes. He holds that matches are subject to duty.

EUROPE.

PESTH, Jan. 16.—A correspondent of the Pesther Lloyd's had an interview with Michael Pasha on Monday and reports that the Grand Vizier then declared in a most positive manner that he would never accept an international commission or foreign control over the appointment of governors under any form whatever.

LONDON, Jan. 17.—Constantinople correspondents of the Telegraph and News both represent that according to proposals as now submitted to the Porte the commission of supervision would have no executive power, but would merely watch the execution of reforms and report their observations to the ambassadors at Constantinople.

A Vienna correspondent of the News reports that Midhat Pasha has taken an unusual step in inviting the Catholic, Armenian, Greek, and Bulgarian patriarchs to participate in the grand council which decides on the Porte's answer. The council will meet on Thursday and the Conference on Saturday.

A dispatch from Vienna to the Telegraph says Gen. Ignatieff, at the last sitting of the Conference, when giving notice of his intention to withdraw in the event of a refusal by the Porte, did not, like other plenipotentiaries, state that he intended to leave his embassy in care of a chargé d'affaires. Therefore, if the Turks refuse the last proposals diplomatic relations between Turkey and Russia will totally close. Count Andrassy has returned to Vienna from Pesth to confer with Prince Agersburg on this critical condition.

PARIS, Jan. 17.—It is stated the Porte has sent a telegraphic dispatch advising Serbia to make peace immediately as no extension of the armistice beyond the 1st of March will be granted, and if peace is not then concluded the Turks will march on Belgrade. If this is true it will probably lead Serbia to decide in favor of peace unless Russia gives her positive assurance of powerful support.

CANADA.

OTTAWA, Jan. 17.—H. Rhodes of British Columbia, who is here, had an interview with the Premier on the improvement of the mail service between Victoria and San Francisco.

At the annual meeting of the Dominion Board of Trade delegates to the National Board of the United States were introduced, accorded the privileges of the Board and requested to take part in the debates. The question of reciprocity was taken up. A resolution favors the adoption of a Treaty of Reciprocity on a liberal, comprehensive basis, and in the event of the United States Government granting the request of the National Board for the appointment of commissioners to confer with the commission to be appointed by Great Britain on the subject, the Board will urge the Government to appoint a commission and join in the negotiations.

DELAYED DISPATCHES.

EUROPE.

QUEENSTOWN, Jan. 13.—The steamer City of Virginia, from Glasgow, Dec. 23, for New York, reported last night off Crook Haven with main shaft broken, is being towed into this harbor.

PARIS, Jan. 13.—The committee appointed to examine into the question of rebuilding that portion of the Tuilleries burned by the Communists, have reported favorably, with a recommendation to convert the reconstructed galleries into an art museum.

Speculation is rife here with regard to the parliamentary rumor which is in circulation, that the Conservatives will divide into two parties, in consequence of a well known difference existing between the Marquis of Salisbury and Lord Beaconsfield. It is believed the Liberals will soon be divided into Left and a Left Center, one

under the leadership of Gladstone and the other under that of the Marquis of Huntingdon.

Cardinal Manning has issued a mandate compelling parties to mixed marriages to content themselves with Catholic services, and to omit Protestant, both being often used. The cardinal also gives the church absolute control over the education of children.

LONDON, Jan. 15.—Of 358 elections for the German parliament, 65 require a second election, 27 are Conservatives, 27 Imperialists, 95 National Liberals, 18 Progressionists, 87 Clericals, 10 Socialist Democrats, 11 Poles, 6 Alsatian Autonomists, three belong to the Alsatian protest party, and seven adhere to no political party.

LONDON, Jan. 15.—A Vienna correspondent of the "Times" says advices received there confirm the impression that the Porte will at the very last moment accept the compromise offered by the Powers. The compromise, will probably prove to be that the Porte be asked to accept the programme, not as something unalterable, but only as a sort of basis for discussion.

LONDON, Jan. 16.—A dispatch dated Cape Town, Africa, Dec. 27th, via Madeira, says: Alarming news is received from Zululand. The Zulu king, Cetegwayo, refuses to permit the occupation by the British troops of the territory which is in dispute between himself and the Transvaal Republic. He has returned, unopened, a letter sent him by the British envoy, and has assembled 8,000 warriors in the disputed territory.

ST. PETERSBURG, Jan. 13.—The Czar has written Grand Duke Nicholas, minister of war, and various generals, thanking them for their successful exertions to promptly mobilize and concentrate the army.

The "Times" dispatch from Rome reports dissensions have broken out in the Italian cabinet. Baron Nicotera, Minister of the Interior, insists upon maintaining censorship of all political press telegrams. His colleagues dissent and a modification of the cabinet may result.

EASTERN STATES.

Logan has been elected Senator for Illinois, and Blaine for Maine.

The president has recognized the Packard government in Louisiana.

Kentucky is arranging as for war. James Gordon Bennett has sailed for Europe.

NEW YORK, Jan. 13.—Governor Stanford, of California, has purchased the young stallion Benton. It is said he paid \$15,000. Benton has a record of 2:20 1/4.

NEW YORK, Jan. 14.—The "Times" New Orleans dispatch says three State Senators who were hid away in Pinckback's residence, went over to the Nichols' Senate, so-called, to-day. They were carried there by Pinckback who accompanied them, and who on the floor made a personal speech denouncing the Republican party as venal and corrupt. Pinckback is not a member of the legislature, but he has been for some time an active candidate for the United States Senate, with little prospect of being elected. He can expect nothing from the Democrats, but to revenge his disappointment he has thus used what influence he possesses to break the quorum of the Republican Senate. The three seceding Republican Senators are colored.

INDIA.

LONDON, Jan. 14.—The India office publishes a dispatch, dated January 12, from Lord Carnarvon, acting Indian Secretary in the absence of Lord Salisbury, to Lord Lytton, governor-general of India. It requests that a weekly summary be henceforth sent by telegraph, giving main facts in regard to the famine. Lord Carnarvon, summing up the information he had hitherto received, considers it alarming that 840,000 persons are already employed on the relief works in Madras and 250,000 in the Bombay government. Estimates show that the famine in Bombay will gradually increase, reaching the maximum in April, when a million persons will require relief, after which it will gradually decrease. In Madras the prospect is proportionately worse. The districts affected in Madras cover eighty thousand square miles, and contain a population of eighteen millions. In Bombay the famine stricken territory covers 54,000 square miles and has a population of eight millions, five millions of which are in districts more immediately affected.

The "Times" special from Calcutta gives a later summary of the situation. In one of the Bombay districts, Sholapore, the crops totally failed. Things are nearly as bad in two other districts and the crops partially failed in six districts. Already two hundred and eighty-seven thousand persons are on the relief works. In Madras famine prevails in twelve districts, and now a million persons are on the relief works. The cost to the State is estimated at over two million sterling in Bombay and four millions in Madras.

PATRONIZED BY HER EXCELLENCY THE COUNTESS OF DUFFERIN.—Remember, if you want to save money in buying, selling, or trading goods of any description, new or second hand, furniture or wearing apparel included, call at Haggerty's store on DUFFERIN STREET, hitherto known as Store Street.

MR. RIDGEMAN'S USEFUL CLOCK faithfully sounds the warning *tempus fugit!* We claim to be more considerate than our esteemed neighbor, who hourly reminds us of this solemn fact, because we only annually remind our friends of the arrival of our usual assortment of *Pocket and Office Diaries*—1877. T. N. HIBBEN & CO. 2m.

Remember This.

Now is the time of year for Pneumonia, Lung Fever, Coughs, Colds, and fatal results of predisposition to Consumption, and other throat and Lung Disease. BOSCHER'S GERMAN SYRUP has been used in this neighborhood for the past two or three years without a single failure to cure. If you have not used this medicine yourself, go to your Druggist, and ask him of its wonderful success among his customers. Three doses will relieve the worst case. If you have no faith in any medicine, just buy a Sample Bottle of BOSCHER'S GERMAN SYRUP for 10 cents and try it. Regular size bottle 75 cents. Don't neglect a cough to save 75 cents. jal00owdw

MUSIC.—NOTICE OF REMOVAL.—Mr. Digby Palmer has removed into his new residence, Fort street. Instruction on the pianoforte, singing and thorough bass; pianofortes tuned; evening parties and balls supplied with music; pianofortes tuned by the year, \$10. Orders may be left at T. N. Hibben Co's. *6m

DENTAL NOTICE.

DR. BARNARD RESPECTFULLY informs the public who have engaged or contemplate securing his services for the insertion of partial or whole sets of Teeth, (also, filling or other work) the necessity of their applying to him, immediately, as he is going East early in the Spring. Artificial Teeth may look very well in a case or on the table, but should be seen in the mouth to be rightly appreciated. Persons consulting Dr. Barnard will have the opportunity of seeing whole sets or partial ones artistically mounted on silver, gold, or vegetable base, in the mouth or out of the mouth. Some of his partial or full upper sets have been in use upwards of 10 years. The Doctor repeatedly sees sets of teeth about town so wholly devoid of expression in retentivity or contour of lip that the wearer can hardly be identified by their most intimate friends. Teeth so inserted are far from being satisfactory to their owners, and may well be considered "dear at any price." Good work is worth paying for; but cheap work should never be contemplated by anyone. Ill-looking sets of teeth particularly. Dr. Barnard has been a Mechanical and Surgical Dentist ever since the year 1839. Experience, DENT. Office and residence, Douglas street, south of Fort street. del00wism
